Afrange Emppenings in Battle.

Special contracts will be made ith

Men might write for a hundred years of the carious phases of war and still leave the subject tresh. War is a lottery, and the prizes are shot, shell, wounds and death. Tens of thousands of men served years in the late war and returned home. Is a thousand cases recruits were killed within twenty four hours after reaching the front. War's missiles are no respetors of persons, and the soldier who fights an all day's battle without receiving a wound may be killed in his tent at night by the acci dental discharge of a musket.

At the battle of Franklin the first shell sent from the first Union field piece to open fire killed twenty six Confederates. The next five shells from this same gun either failed to explode or cleared the advaccing lines. In this same fight the horse of a Confederate colonel was cut square in two by a shot and the rider escaped undurt. Ten minutes after a Union officer behind the carthworks stumbled and fell forward on the ground and broke his neck.

In one of the assaults on Firt Wagner, in Charleston Harbor, the iron c -d fileet assisted by land batteries sumbering twenty seven heavy conoon, bombaided the fort for two hours before killing a single soldier. From seventy to eighty heavy causen were hurling three tons of iron into the fort each minute, and yet no one was burt until over three hundred tens of "solid doarn" had been wasted. As an offset to this, witness the work of a single solid shot, thrown from a Federal gunboat on the lower Mississippi. A Confederate flying battery was just taking post ion, and one piece had alread append fire. The Federal shot was directed at this piece. The big mass of iron struck the six pounder square on the muzz e and upset gas and carriage. A piece of the muzzle weighing about twenty pounds was brok in off, and this flow to the left and killed two men: Three men were wounded by smaller traements of flying splinters. The big shot next struck and exploded a caisson, killing three mea and wounding two others. From the caisson it turn d to the right, killed a herse, smashed a water of a fild piece and crushed the leg of a sergenot to a bloody mass

ambered up and dashed away to cover. While beavy ordespee is necessary in reducing for s and car hwo.ks, it is doub.iu if there was mry profi. in the work of the big guns carried by the fron clads on the rivers. When McDlellan felt back he had the cover of gunboats, and some writers have claimed that their fire saved the army from capture. So far as the Confederate records show, the loss by the hundreds of coormous she is thrown over the heads of our troops into the woods by these great cannon did not amount to a hundred men. They were a new thing then, and the effect of the awful crash and tremendous explication was demoraliz-

ing on the troops in line. A Union guabout on the White River threw three shells into a Confederate comp, killed nearly fifty men and routed a force of 800. Within a week after that event the Confederate General Shelby planted four pi cas of flying artillery on the lovee within 400 feet of the same guaboat at anchor, and wishout the least cover for men or guns, kept up the fight for cv r an hour, or until the gueboat backed out

or is and srea ned away.

The chances is a loccery can be figured down fine, and a certain per cent, of escapes is allowed in a steambos, explusion, but he who goes to war has cothing to console him. He may dodge a 200 pounds shell and be killed by two buckshot. He may receive a d zen bullets and live on, or the first one may be estal. He may ride in the wildest charge unburt, and he may be killed by a stray builet toside his camp fire. - Detroit Free Press

HUNTED WITH BLOODHOUNDS -An exciting chase of two acgross with bloodhounds occurred at Brunson's, S. U., last week. Tom Brounell and Bob Riching, two negro men, broke in a store near B usson's and carried off about one bundred dollars' worth of goods. These two men were at ones suspected of the robbery, and it was understood that they were making their way down the Brunson turnpike in the direction of Columbia. A party was quickly organ zed and mounted. Five blood ounds were secured, and pursuit of the negroes bagun. The road is a level and beautiful one. The men were all mounted, and the dogs thoroughy trained. They quickly found the scent of the flicing negroes and is was followed with savage caligot. As the cont became warmer and wirmer the hounds became wild with ferocious usight, and sprang forward at a speed rarely ever seen. The hunters followed clus; behind After a race of three miles the flicing darkies were sighted by the dogs. They bounded over the smooth surface at an increased rate. Their wild yelps made cold chills run through the negroes. who, however, determined to give them a race. They are athlee ic, and consider ed the test pedestrians in the county. With the five paying bloodhounds at their neels, they epec on. Despite the desperate efforts they made and the learlul rate at which they fairly flow over the ground, the animals rapidly gaineu on their prey. As they ascended a sligh, bill two of them poured upon the fugitives. As they threw them on the ground the hunters came up and arrested the negroes, who were promptly put in jail. The chase was an exciting one, and joined in by saveral persons along the road.
